HOW TO MAKE COMPOST HEAP

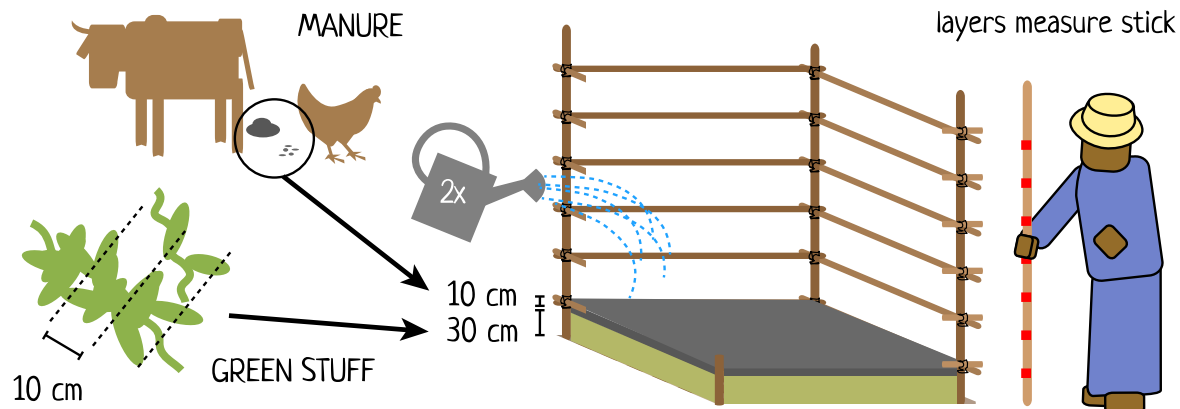

ILLUSTRATION: STUDIOREBEL.NL

1

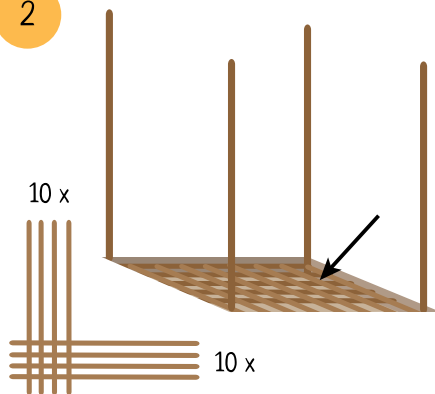

4

The process starts as soon as you start so cut the leaves and tobacco stems when the manure is ready.

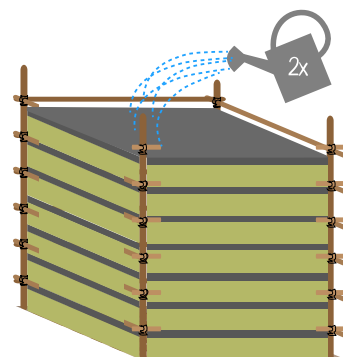

2

5

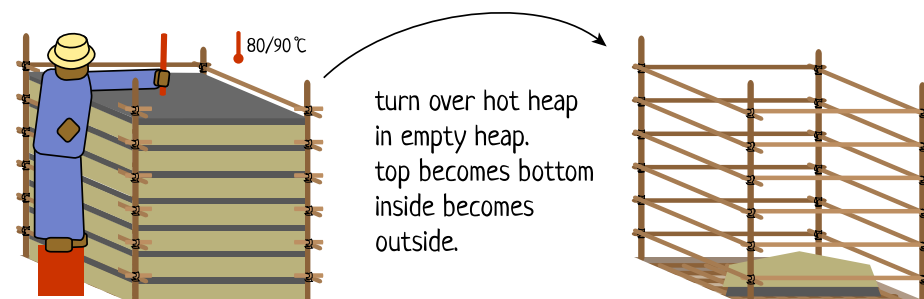

Water all manure layers

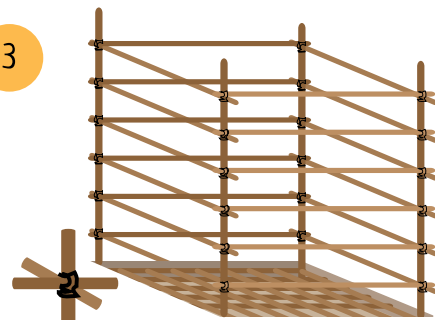

6

After 7 days

Put a metal rod in the centre of heap. Leave for at least 15 min. Tip of rod has to be so hot you cannot hold for 2 sec.

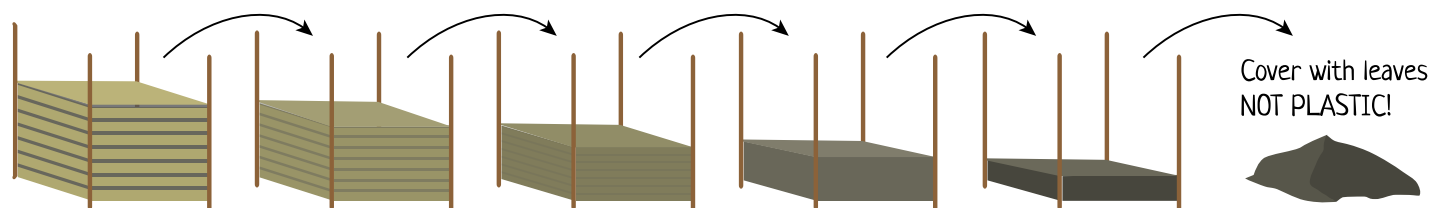

3

7

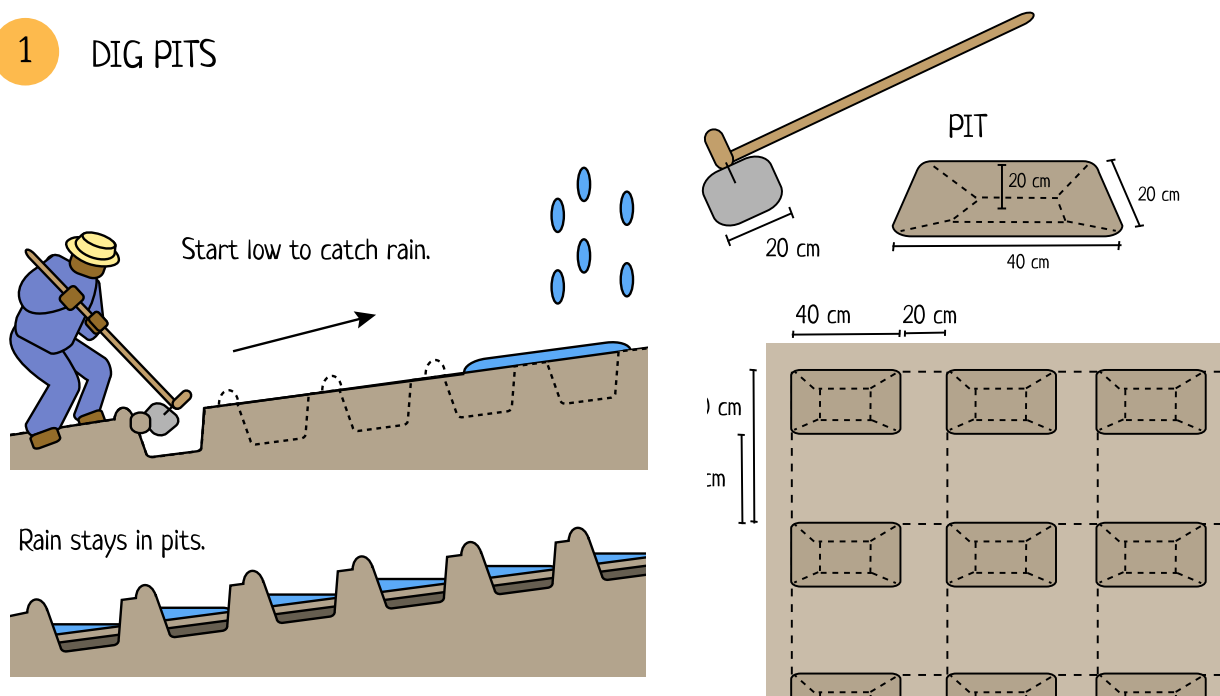

Turn over again after 7 days. And repeat at least 4 times up to 7 times. Until compost manure is cooled down and ready.

HOW TO PLANT

ILLUSTRATION: STUDIOREBEL.NL

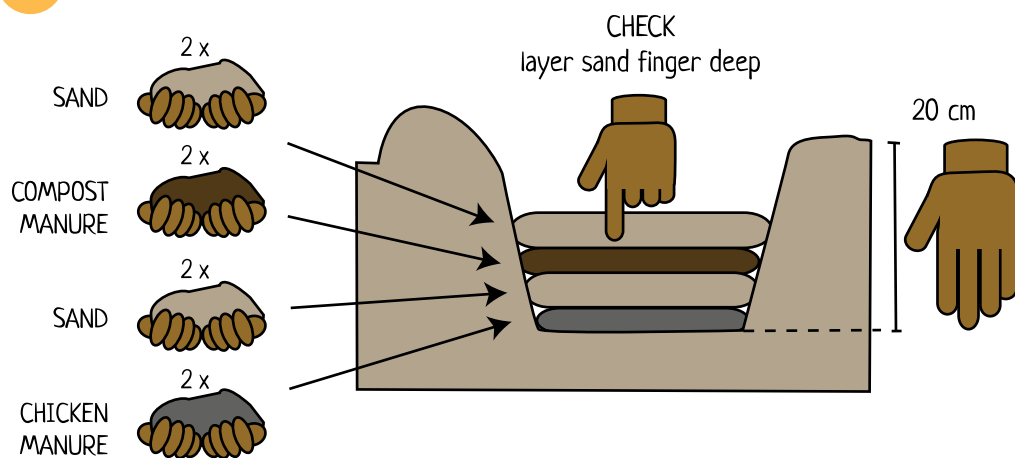

1 DIG PITS

4 WEED BY HAND EVERY WEEK

2 FILL PITS

3 PLANT SEEDS AFTER SECOND RAINS
